---

Product designer specializing in eCommerce, with a strong pull toward AI. I'm passionate about learning and making products that feel easy, fun and rewarding to use. At Wix, I designed Cart & Checkout features now live on every Wix store. On my own, I designed and coded Lucid, an AI dream journal app.

EXPERIENCE

Wix · UX Designer, eCommerce — 2025 – 2026

- Designed features for the Cart & Checkout experience, live today on every Wix site with a store
- Worked with PMs, developers and architects from several teams, from first idea to release
- Defined user flows, edge cases and UX requirements, and ran user research with my product team

Everlast Aesthetics · Freelance Product Designer — 2024 – 2025

- Designed and specified the website for a medical cosmetics brand, from structure and user flows to final UI
- Ran independent research to define the site structure and content
- Managed my own timeline and aligned requirements directly with the client's manager
- Designed graphic elements for each product category and adapted the experience for desktop and mobile

SELECTED PROJECT

Lucid · AI dream journal app — Final project, ongoing

- Designed and specified a bilingual (Hebrew/English) app for logging dreams by voice or text, with emotion tagging and tracking patterns over time
- Built a design token system and implemented the UI in code (Claude Code)
- Integrated AI dream analysis and generated visual interpretations of each dream

EDUCATION

University of Haifa (formerly WIZO) · B.Des. in Visual Communication · Teaching Certificate in Design — 2022 – 2026

Wix UX Bootcamp — Summer 2025

Blich High School — 2014 – 2018

MILITARY SERVICE

Commander, Education NCO Training · Led and trained teams of education NCOs — 2019 – 2020

Education NCO, "Sky Rider" Unit · Analyzed the training and education needs of a complex military unit — 2018 – 2019
